- 6.3 Participation by board in the hearing.
- 6.4 Participation by parties in the hearing.
- 6.5 Stenographic records.

AUTHORITY: §§ 6.1 to 6.12, inclusive, issued under R. S. 161, 37 Stat. 736; 5 U. S. C. 22, 619.

§ 6.1 *Appointment of Emergency Boards of Inquiry.* Emergency Boards of Inquiry may be appointed by the Secretary of Labor in connection with any labor dispute whenever in his judgment the interest of industrial peace may require it to be done.

§ 6.2 *Hearing to be public.* Whenever such a board has been appointed it shall hold a public hearing on the merits of the dispute, unless the parties agree to present their case in writing. The record made at such hearing shall include all documents, statements, exhibits, and briefs, which may be submitted, together with the stenographic record. The parties shall have the right to attend the hearing with such persons as they desire, and the hearing shall be open to any other person who wishes to attend, including representatives of the press and radio. The board shall have authority to make whatever reasonable rules are necessary for the conduct of an orderly public hearing. The board may, with the consent of the parties, exclude persons other than the parties at any time when the expeditious settlement of the dispute so requires.

§ 6.3 *Participation by board in the hearing.* The board may, on its own initiative, at such hearing, call witnesses and introduce documentary or other evidence, and may participate in the examination of witnesses for the purpose of expediting the hearing or eliciting material facts.

§ 6.4 *Participation by parties in their hearing.* The interested parties or their representatives shall be given reasonable opportunity: (a) To be present in person at every stage of the hearing; (b) to be represented adequately; (c) to present orally or otherwise any material evidence relevant to the issues; (d) to ask questions of the opposing party or a witness relating to evidence offered or statements made by the party or witness at the hearing, unless it is clear that such questions have no material bearing on the credibility of that party or witness or on the issues in the case; (e) to present to the board oral or written argument on the issues.

§ 6.5 *Stenographic records.* An official stenographic record of the proceedings shall be made. A copy of such record shall be available for inspection by the parties, and copies may be purchased by the parties from the court reporter.

§ 6.6 *Rules of evidence.* The hearing may be conducted informally. The receipt of evidence at the hearing need not be governed by the common law rules of evidence.

§ 6.7 *Facilities available to board.* The board may during the proceedings consult with the office of the Secretary of Labor or his designated agents for the purpose of obtaining information pertaining to any wage or salary issue. (Such information may include information in the possession of other governmental agencies.)

Emergency Boards shall be serviced, including the making available of personnel and facilities of the Department,

through the office of the Director of the United States Conciliation Service.

§ 6.3 *Requests for the production of evidence.* The board does not have the power of subpoena. It may request the parties to produce any evidence it deems relevant to the issues but such evidence must be obtained upon the voluntary compliance of the parties.

§ 6.9 *Adjournment of hearing to permit direct negotiation.* Where, in the opinion of the board, the parties should make further efforts to settle an issue by collective bargaining or where the parties agree to do so, the board may recess the hearing to allow the parties to resume direct negotiations for as long a period as they may mutually agree upon or until a date specified by the board for reconvening of the hearing. Whenever possible, the board shall, at the time of the recess, notify the parties of the date when the board will reconvene with the parties. If it is not possible to give such notice at the time of recess, the parties shall be given at least five days advance notice of this date of reconvening, unless the exigencies of the situation require shorter notice.

§ 6.10 *Settlement of issue by agreement between parties.* If during the proceedings an agreement is reached between the parties with respect to the issues in dispute they shall be requested to execute a statement in writing to that effect.

§ 6.11 *Question as to extent of board's authority.* If during the proceedings a question arises as to the extent of the authority of the board to inquire into the facts, or as to the interpretation of the order of the Secretary setting up the board, the board may recess the hearing and consult with the Secretary or his designated agent for the purpose of obtaining clarification.

§ 6.12 *Findings of fact and recommendation by the board.* (a) After the conclusion of the hearing the board shall submit to the Secretary an original and six copies of its findings of fact and recommendations, unless the parties in the meantime have settled the dispute or agreed to submit it to arbitration.

(b) The time for filing findings of fact and recommendations may not be extended except upon consent of the Secretary.

Signed at Washington, D. C., this 20th day of January 1947.

Secretary of Labor

#### PART 1300—PROCEDURE

[Rev. Procedural Reg. 1, Amdt. 12]

#### PROCEDURE FOR THE ISSUANCE, ADJUSTMENT, AMENDMENT, PROTEST AND INTERPRETATION OF MAXIMUM PRICE REGULATIONS

Section 55 of Revised Procedural Regulation 1 is amended in the following respects:

1. The words, "nearest district office," appearing in the fifth line of paragraph (a) are deleted, and in their place are substituted the words, "appropriate regional office."

2. Paragraph (a) is redesignated as paragraph (a) (1) and a new subparagraph (2) is added to read as follows:

(2) *Interpretations with respect to decontrolled commodities.* No official interpretation will be issued with respect to any regulation or order covering a commodity that is no longer under price control, except upon the request of persons involved in enforcement proceedings or current investigations, or upon the request of any federal, state or local government agency. Such requests must be addressed to the General Counsel, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C., and must, in addition to fulfilling all the requirements of sub-paragraph (1) above, clearly identify the enforcement proceeding or investigation involved or in the case of a request by a government agency, explain why the request is made.

3. Paragraph (b) is amended to read as follows:

All other official interpretations may be signed only by the Commissioner or the General Counsel.

4. Paragraph (c) is amended to read as follows:

## PART 1388—DEFENSE-RENTAL AREAS

[Housing, New York City Area,<sup>1</sup> Amdt. 35  
(§ 1388.1281)]

## HOUSING IN NEW YORK CITY AREA

Section 1 (b) (6) of the rent regulation for housing in the New York City defense-rental area is amended to read as follows:

(6) *Resort housing.* Housing accommodations located in a resort community and customarily rented or occupied on a seasonal basis prior to October 1, 1945, which were not rented during any portion of the period beginning on November 1, 1943, and ending on February 29, 1944.

This exemption shall be effective only from June 1, 1947, to September 30, 1947, inclusive.

Effective: February 17, 1947.

Issued: February 17, 1947.

PHILIP B. FLEMING,

Temporary Controls Administrator.

*Statement To Accompany Amendment 35 to the Rent Regulation for Housing in the New York City Defense-Rental Area*

By this amendment the provision which created an exception in the case of the City of Long Beach from the resort housing exemption with reference to multiple-unit buildings, is eliminated in view of the fact that the conditions which necessitated the exception no longer exist.

In the judgment of the Price Administrator, this amendment is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendment unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of this amendment compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

The intent of these proposed changes is to clarify existing regulations, effect editorial changes and bring the regulations into closer agreement with the requirements of the American Bureau of Shipping and the standards of the American Society for Testing Materials and the American Society of Mechanical Engineers as well as to incorporate recommendations proposed by boiler manufacturers, marine engineers, and others.

6. The authority for regulations on marine engineering and material specifications is in R. S. 4405, 4417a, 4418, 4426, 4429-4434, as amended, 49 Stat. 1544, sec. 2, 54 Stat. 1026, and sec. 5 (e), 55 Stat. 244; 46 U. S. C. 367, 375, 391a, 392, 404, 407-412, 463a, 50 U. S. C. 1275; and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### WELDING ELECTRODE SPECIFICATIONS

7. As the result of the study made on the problem of structural failures in the hulls of merchant vessels by the board appointed by the Secretary of the Navy to investigate design and construction practices, certain recommendations and corrective steps were indicated in the report. Two of the steps recommended were new electrode specifications and corresponding reclassification of listed brands. Two new specifications are proposed to be added to 46 CFR, Subchapter Q—Specifications; one as a specification for electrodes (covered), welding, medium steel, for merchant vessels (46 CFR, Subpart 164.700) and the other as a specification for electrodes (covered), welding, molybdenum alloy

steel for merchant vessels (46 CFR, Subpart 164.701)

8. At present there are three different sets of specifications intended to classify electrodes for ship construction purposes, which are promulgated by the American Bureau of Shipping, the U. S. Navy, and the U. S. Coast Guard. In order to streamline the approval of electrodes intended for use in the construction of merchant vessels and equipment subject to inspection by the Coast Guard, a new approval procedure has been agreed upon by the American Bureau of Shipping, the U. S. Navy, and the U. S. Coast Guard. The electrodes will be tested in a Naval Laboratory and the tests will be witnessed by a surveyor of the American Bureau of Shipping, which agency will prepare a list of approved electrodes for public circulation. The Coast Guard will make no separate listing of welding electrodes, but will accept the welding electrodes listed on this new American Bureau of Shipping's list.

9. The new specifications proposed are intended to implement this new arrangement for welding electrode approvals. The new specifications refer to the Navy specifications for all types of electrodes included therein. In addition, three types of welding electrodes are permitted and the testing of these three types will be made according to the American Welding Society—American Society for Testing Materials specifications. The listing of welding electrodes for all types of ship construction will be identical except for certain brands permitted for certain limited applications on merchant ship construction. The specifications include three principal additions to the currently effective American Welding Society—American Society for Testing Materials specifications, which are X-ray tests, humidity tests, and a standard color marking to designate the different classes of welding electrodes. The X-ray examination of the welds is intended to improve the general soundness of the welds. Electrodes capable of depositing superior weld metal under tests will obviously give superior welds under ordinary operating conditions. The humidity test is intended to cull out those welding electrodes which might deteriorate too quickly in storage. The standard color marking for different classes of welding electrodes is intended to reduce confusion because at present there is no uniform system by which different types of electrodes can be distinguished and various manufacturers have adopted distinguishing marks which have created confusion when intermingled with welding electrodes of other brands. The Navy specifications include these three principal additions which have already been widely adopted by industry. The American Bureau of Shipping's approved list of welding electrodes includes all electrodes currently approved by either the U. S. Navy or the American Bureau of Shipping. It is intended to permit all brands and types of electrodes on this list until evidence is received from laboratory work that certain electrodes do not comply with the proposed specifications.

10. It is proposed to amend 46 CFR 37.2-5, 37.2-7, 59.15, 60.12, and 76.18, regarding welding in construction of life-

boats, life rafts, etc., in order to make proper editorial references to proposed welding electrode specifications. The regulation in 56 CFR 56.20-3a, regarding the approval of welding electrodes or welding rods will be canceled.

11. The authority for regulations on welding electrode specifications is in R. S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, 4488, 4491, as amended, 49 Stat. 1544, sec. 2, 54 Stat. 1028, sec. 5 (e), 55 Stat. 244; 46 U. S. C. 367, 375, 391a, 392, 404, 407, 408, 411, 412, 463a, 481, 489, 50 U. S. C. 1275; and sec. 101, Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### CASUALTY AND ACCIDENT INVESTIGATIONS

12. The temporary wartime rules for casualty and accident investigations in 46 CFR 136.100 to 136.112, inclusive, were based in part on a waiver of certain requirements of 46 U. S. C. 239 (R. S. 4450). It is necessary that the regulations and procedures be revised to comply with the changes in the statutes made by Reorganization Plan No. 3 of 1946 (11 F. R. 7875) and the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 238). The proposed regulations will cancel the regulations in 46 CFR, Parts 136 and 137, which were suspended by the waiver of the Commandant, U. S. Coast Guard, dated August 26, 1942, 7 F. R. 6778, and will revise the regulations in 46 CFR 136.100 to 136.112, inclusive. Only the minimum changes in regulations have been made in this part to comply with the new statutory requirements, and the present regulations will be reissued in modified form as new regulations. The proposed regulations will separate insofar as possible procedural requirements from substantive requirements and will provide definite procedures for Marine Boards of Investigations which will replace the "A", "B", and "C" Boards formerly required by 46 U. S. C. 239. However, where a marine casualty or accident is not a major marine casualty only an investigating officer will perform the functions formerly made by one of the boards required by 46 U. S. C. 239. The proposed regulations also contain new regulations regarding disclosure of records, persons in service of Coast Guard, depositions, construction of rules and rules of evidence, and computation of time.

13. The authority for regulations on casualty and accident investigations is in R. S. 4450, as amended, 46 U. S. C. 239; the Administrative Procedure Act, Public Law 404, 79th Congress, 60 Stat. 238; and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### SUSPENSION AND REVOCATION PROCEEDINGS

14. The rules for suspension and revocation proceedings dealing with licenses and certificates issued by the Coast Guard or its predecessors to merchant marine personnel were also contained in the temporary wartime rules for casualty and accident investigations in 46 CFR 136.100 to 136.112, inclusive. The Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 238), and Reorganization Plan No. 3 of 1946 (11 F. R. 7875) require that the regulations and procedures be revised and modified. Only the minimum changes in the present rules have been made in this part to

comply with the new statutory requirements. It is proposed to revise the requirements in 46 CFR 136.100 to 136.112, inclusive, regarding suspension and revocation proceedings, and to transfer such regulations to 46 CFR, Part 137, which will contain the rules for suspension and revocation proceedings only. These regulations will be issued as new regulations. The proposed regulations will require the use of examiners to conduct the hearings in suspension and revocation proceedings who will have the authority to make a final decision subject to an appeal to the Commandant, U. S. Coast Guard. This is in accordance with present regulation in 46 CFR 4.05-3, published in the FEDERAL REGISTER November 30, 1946 (11 F. R. 13970). The proposed regulations cover the requirements for investigating officers, preliminary investigations, hearings and responsibility of examiners. There have also been added rules regarding disclosure of records, definitions, depositions, construction of rules and rules of evidence, taking of official notice of facts by examiners, submission of briefs, proposed findings and conclusions, and disqualification of examiner.

15. The authority for rules on suspension and revocation proceedings is in R. S. 4450, as amended, 46 U. S. C. 239; Administrative Procedure Act, Public Law 404, 79th Congress, 60 Stat. 238; and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### GREAT LAKES PILOT RULES

16. Upon a petition of the Lakes Carriers' Association proposed changes in the Pilot Rules for the Great Lakes will be considered. The proposed changes deal with regulations in 33 CFR, Part 322. The recommendations made are to improve the Pilot Rules for the Great Lakes and cover the following pilot rules:

(a) Definitions and risk of collision (33 CFR 322.02).

(b) Signals and rules of the road (33 CFR 322.1, 322.4 to 322.8, inclusive, 322.10, and 322.13)

(c) Distress signals (33 CFR 322.15).

17. The authority for Pilot Rules for the Great Lakes is in section 3, 28 Stat. 649, 33 U. S. C. 243, and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### DANGEROUS CARGO

18. It is proposed to amend 33 CFR 6.25 entitled, "Authority to load, unload, or transport Class A explosives," by adding a new regulation requiring that the present application for a permit to load explosives submitted to the Captain of the Port shall be accompanied with a preliminary dangerous cargo stowage plan and detailed manifest of other dangerous cargo proposed to be loaded on board the vessel. The permit to load explosives will be granted after a satisfactory loading and stowage plan has been approved by the Captain of the Port. The authority for this regulation is in section 1, Title II of the Espionage Act, approved June 15, 1917, 40 Stat. 220, as amended by the act of November 15, 1941, 55 Stat. 763, 50 U. S. C. 191, 191c, and Proclamation No. 2412, dated June 27, 1940, 3 CFR Cum. Supp.

19. It is proposed to amend the present regulation in 46 CFR 146.24-15 re-

garding liquid chlorine in bulk by adding specific authority in 46 CFR 146.24-15 (j) for the customary operational practice of the carrier to replace relief valves whenever he deems it to be necessary for safety and to delete the requirement in 46 CFR 146.24-15 (k), regarding sea cocks of an approved design for the purpose of sinking the barge in the event of an emergency, since it is agreed that sinking the barge may be more hazardous than controlling any leaks. The authority for this regulation is in R. S. 4472, as amended, 46 U. S. C. 170, and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### TERMINATION OF APPROVAL OF EQUIPMENT

20. The termination of approval of the York-Shipley heating boilers, models M-500, M-800, M-1200, M-1500, and HW-250 will be considered because these types of boilers are no longer being manufactured. In the proposed termination of approval it is intended that any of these types of boilers now in use may be continued in service so long as they are in good and serviceable condition. The authority for terminating this approval is in R. S. 4405, 4417a, 4429-33, and 4491, as amended, 49 Stat. 1544, 46 U. S. C. 367, 375, 391a, 407-411, 489, and section 101, Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

#### USE OF LIQUEFIED PETROLEUM GASES ON VESSELS OTHER THAN PASSENGER VESSELS

21. The Merchant Marine Council at a public hearing held October 22, 1946, in accordance with the announcement published in the FEDERAL REGISTER, dated September 27, 1946 (11 F. R. 11014), received comments concerning the use of liquefied petroleum gases for cooking and heating purposes when considering proposed regulations to be added to the Tank Vessel Regulations in 46 CFR, Part 34, and proposed minor amendments to regulations in 46 CFR 61.25 (g), 77.24 (g) 95.24 (g) and 114.25 (g), covering cargo vessels. Because of the rapid increase in the use of liquefied petroleum gases and proposed studies to be made by various organizations, the Merchant Marine Council decided to postpone final recommendations on the proposed amendments until further study of the subject was made and additional suggestions could be received.

22. The proposed regulations for using liquefied petroleum gases for cooking and heating purposes on vessels other than passenger vessels are based on the comments and suggestions made at the public hearing held by the Merchant Marine Council and the study made since October 22, 1946. The new regulations cover the use of liquefied petroleum gases on tank vessels and revise and amend the regulations in 46 CFR 61.25, 77.24, 95.24, and 114.25 applicable to cargo vessels. If the regulations are adopted, it is intended that they will be made effective 90 days after the date of publication of the document in the FEDERAL REGISTER.

23. The authority for regulations on use of liquefied petroleum gases on vessels other than passenger vessels is in R. S. 4405, 4417, 4417a, 4418, 4426, 4427, and 4491, as amended, 35 Stat. 428, 49 Stat. 1544, sec. 2, 54 Stat. 1028, sec. 5 (e),

55 Stat. 244; 46 U. S. C. 367, 375, 391, 391a, 392, 395, 404, 405, 463a, 489, 50 U. S. C. 1275; and Reorganization Plan No. 3 of 1946, 11 F. R. 7875.

Dated: February 13, 1947.

## CLASSIFICATION ORDER

JANUARY 30, 1947.

1. Pursuant to the authority delegated to me by the Secretary of the Interior (43 CFR 4.275 (a) (39) 11 F. R. 9080), I hereby classify under the small tract act of June 1, 1938 (52 Stat. 609) as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a) for leasing, as hereinafter indicated, the following described public lands in the Los Angeles, California, land district, embracing 676.47 acres:

## SMALL TRACT CLASSIFICATION No. 105

## CALIFORNIA NO. 43

For all of the purposes mentioned in the act except camp and business site purposes.

## San Bernardino Meridian

T. 1 S., R. 9 E.,  
Sec. 4, lots 7, 8, 9 and 10;  
Sec. 11, lots 2, 5, 6, 7 and 8;  
Sec. 14, lots 3, 4, 5, 6 and 7, SE $\frac{1}{4}$ NW $\frac{1}{4}$ ,  
E $\frac{1}{2}$ SW $\frac{1}{4}$ .

2. The lands lie at the base of the Pinto Mountains approximately 2,300 feet above sea level, and are located in San Bernardino County, about a mile and a half to five miles south and southeast of Twentynine Palms. They are accessible by automobile over dirt roads or trails. An electric power line has been extended to Twentynine Palms, and telephone service is available. In addition to clothing and grocery stores, restaurants, hotels and tourist homes, two modern schools, churches, movies and other facilities are available at Twentynine Palms.

3. Water for the entire area is obtained from ground water supplies. Water has been obtained from wells throughout the area which range in depth from 30 to 275 feet. Water from developed wells is sold and delivered locally. This is a common practice in this vicinity and is often the cheapest and most desirable method of obtaining culinary water.

4. Pursuant to § 257.8 of the Code of Federal Regulations (43 CFR, Cum. Supp., Part 257, as amended by Circ. 1613, Feb. 27, 1946) a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed, under the regulations issued pursuant to the act, prior to 3:12 p. m. on April 30, 1946, and (b) are for the type of site for which the land subject thereunder has been classified. As to such applications, this order shall become effective upon the date on which it is signed.

5. As to the land not covered by the applications referred to in paragraph 4, this order shall not become effective to permit the leasing of such land under the small tract act of June 1, 1938, cited above, until 10:00 a. m. on April 3, 1947.

At that time such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for other preference right filings.* For a period of 90 days from 10:00 a. m. on April 3, 1947, to close of business on July 2, 1947, inclusive, to (1) application under the small tract act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279-283) subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2)

(b) *Advance period for simultaneous preference-right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed at or after 3:12 p. m. on April 30, 1946, together with those presented at 10:00 a. m. on March 14, 1947, shall be treated as simultaneously filed.

(c) *Date for nonpreference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 3, 1947, any of the land remaining unappropriated shall become subject to application under the small tract act by the public generally.

(d) *Advance period for simultaneous nonpreference-right filings.* Applications under the small tract act by the general public filed at or after 3:12 p. m. on April 30, 1946, together with those presented at 10:00 a. m. on June 13, 1947, shall be treated as simultaneously filed.

6. Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

7. All applications for the lands referred to in paragraphs 4 and 5, which shall be filed in the District Land Office at Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circ. 324, May 22, 1914, 43 L. D. 254) to the extent that such regulations are applicable. Applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

8. Lessees under the small tract act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land,

to the satisfaction of the Director, Bureau of Land Management, improvements which under the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of five years, at an annual rental of \$5 payable yearly in advance.

9. The land will be leased in tracts of approximately 5 acres, or aliquot parts thereof, each being approximately 330 by 660 feet, or aliquot dimensions thereof. The tracts should conform in description with the rectangular system of surveys as one compact unit, the lands covered by applications referred to in paragraph 5 having the longest dimension extending in an east-west direction.

10. Preference right leases referred to in paragraph 4 will be issued for the land described in the application, irrespective of the direction of the tract, provided the tract is made to conform to the areas and dimensions specified above.

11. Where only one 5-acre tract in a 10-acre subdivision is embraced in a preference right application, however, the Acting Manager is authorized to accept applications for the remaining 5-acre tract or aliquot parts thereof extending in the same direction so as to fill out the subdivision, notwithstanding the direction of the tract may be contrary to that specified above.

12. All inquiries relating to these lands shall be addressed to the Acting Manager, District Land Office, Los Angeles 12, California.

THOS. C. HAVELL,  
Acting Assistant Director

[C-477]

FUELANE CORP.

#### CONSENT ORDER

Fuelane Corporation of Liberty, New York, is charged by the Civilian Production Administration with violating Veterans' Housing Program Order 1 by beginning construction shortly after November 10, 1946, of a building in Windsor, Vermont, which was estimated to cost between \$10,000.00 and \$12,000.00, and which has an approximate square foot floor area of 6200 square feet. This building was intended to be used for storage and warehouse facilities for the distribution of liquefied petroleum gas. Fuelane Corporation had filed application for construction of the masonry and foundation work of this building with the Civilian Production Administration in Burlington, Vermont, on November 4, 1946, and this application was denied by the Civilian Production Administration on November 14, 1946. However, construction of the masonry and foundation work for the building continued until about December 13, 1946.

Fuelane Corporation admits the violation as charged but denies that it was wilful and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Fuelane Corporation, the Regional Compliance Director, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Fuelane Corporation, its successors or assigns, nor any other person shall do any further construction on the building located about one mile North of Windsor Village on Highway 5 in Windsor Township, Vermont, including the putting up, completing, or installing

fixtures or mechanical equipment in the structure unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Fuelane Corporation shall refer to this order in any application or appeal which it may file with the Civilian Production Administration for authority to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Fuelane Corporation, its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

# SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1312]

STANDARD GAS AND ELECTRIC CO.

ORDER TO SHOW CAUSE WHY EXTENSION SHOULD BE GRANTED

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of February 1947.

The Commission having previously, by order entered August 8, 1941, directed that Standard Gas and Electric Company (Standard Gas) divest itself of its holdings in certain subsidiaries, including Mountain States Power Company, and the time for compliance with such order having expired;

The Commission on August 22, 1946, having issued its order (Holding Company Act Release No. 6856) in the above matter permitting to become effective pursuant to Rule U-23 a declaration, as amended, filed by Standard Gas regarding the sale pursuant to Rule U-50 of the 140,614 shares of common stock of Mountain States Power Company, without par value, owned by Standard Gas, the effectiveness of which order terminated pursuant to Rule U-24 sixty days after date thereof without declarant having offered said stock for sale;

The Commission on December 12, 1946, having issued its order (Holding Company Act Release No. 7061) in the above matter permitting to become effective pursuant to Rule U-23, an amended declaration regarding the proposed sale by Standard Gas of 140,614 shares of common stock of Mountain States Power Company, without par value, owned by Standard Gas, which declaration contemplated that such sale would be consummated within 60 days from the effective date thereof, or on or prior to February 10, 1947, as required by Rule U-24;

Standard Gas having now requested that the Commission issue a supplemental order extending for a period of an additional 30 days the time within which such sale may be made pursuant to such amended declaration;

The Commission having considered said request, and being of the opinion that the declarant should show cause why such request should be granted, and that an opportunity for hearing should be afforded for that purpose;

*It is hereby ordered*, That a hearing shall be held at 10 a. m., e. s. t. on the 18th day of February, 1947, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318, at which time declarant shall show cause why such extension should be granted.

*It is further ordered*, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act, and to a trial examiner under the Commission's rules of practice.

It appearing appropriate that in view of the foregoing date for hearing a short extension of time should be permitted within which declarant may effectuate such sale;

*It is further ordered*, That an extension of time be and is hereby granted for the effectuation of such sale pursuant to said amended declaration until February 21, 1947.

*It is further ordered*, That jurisdiction be and hereby is reserved to enter an order further extending such time, without further application therefor, in the event that prior to February 21, 1947, Standard Gas shall have advertised for bids for the sale of such stock.

*It is further ordered*, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order, by registered mail, to Standard Gas and Electric Company.

BROWN-FORMAN DISTILLERS CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of February A. D. 1947.

The New York Curb Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the \$4.00 Cumulative Preferred Stock, No Par Value, of Brown-Forman Distillers Corporation. The application alleges that (1) the listing of this security on the New York Curb Exchange had been approved by the Exchange subject to the condition of submission of evidence of satisfactory distribution of the security; (2) of the 9,844½ shares of this security issued, 7,300½ shares were issued to the Chairman of the Board of the issuer and 54 shares to a director of the issuer; (3) the balance of 2,489½ shares were issued to only 51 public stockholders; (4) the public distribution of this security is not such as would warrant the admission of this security to dealings on the New York Curb Exchange; and (5) the rules of the New York Curb Exchange with respect to the striking of a security from listing and registration have been complied with.

Upon receipt of a request, prior to March 10, 1947, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or condi-

tions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of February A. D. 1947.

Notice is hereby given that a joint application-declaration and amendments thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Power & Light Company ("American") a registered holding company subsidiary of Electric Bond and Share Company, a registered holding company, and American's wholly-owned registered holding company subsidiary, Texas Utilities Company ("Texas Utilities"). Applicants-declarants deem sections 6 (a), 7, 9, 10 and 12 (f) of the act applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 18, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 18, 1947, said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Texas Utilities proposes to amend its charter to change its presently authorized and outstanding 2,001,000 shares of common stock without nominal or par value, all of which are owned by Ameri-

can, to 4,000,000 shares of common stock without nominal or par value but without any change in the aggregate stated value, said 4,000,000 shares to be issued to American in exchange for its presently held shares of Texas Utilities.

Texas Utilities further proposes to amend its charter in the following respects:

(a) To increase its authorized capital stock to 40,000,000 shares without nominal or par value.

(b) To provide for preemptive rights to stockholders with respect to any offering of common stock, or security convertible into common stock, for money, other than with respect to a public offering of such shares.

(c) To authorize the Board of Directors to sell, exchange or otherwise dispose of any property not essential to the conduct of its corporate business.

(d) To authorize the corporation to sell, exchange or otherwise dispose of all or an essential portion of its property upon the vote of a majority of the Board of Directors and a majority of the aggregate number of shares outstanding and entitled to vote.

(e) To provide that statutes passed in the future affecting the rights of the company or its stockholders shall be applicable to the company upon the vote of the holders of a majority of shares of the outstanding stock.

Applicants-declarants state that the reclassification of shares held by American is proposed in order to facilitate the sale of 15% of the stock of Texas Utilities by American in accordance with a plan for the retirement of American's preferred stock pending before this Commission. The remaining amendments, it is stated, are for the purpose of providing for authorized but unissued capital stock in connection with possible future financings, and to insure appropriate flexibility in future management.

The applicants-declarants request that the order to be issued with respect to the reclassification of Texas Utilities stock, the surrender by American of its presently held shares, and the issuance of new shares of Texas Utilities stock to American conform with the requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof.

The joint application-declaration requests that the Commission's order granting the application and permitting the declaration herein to become effective be issued as promptly as shall be practicable and that it shall be effective forthwith.
